SQUARE DANCE FOR BENEFIT OF R. C. SCHOOL

A square dance will be given in Saenger hall, at Tinley Park, Saturday evening, November 9, for the benefit of the school for retarded children. It is being sponsored by the South Suburban Council for Retarded Children.

The local group conducts the Happiday school for the handicapped youngsters and sessions are held every Tuesday and Wednesday morning in the Schilling school building, no longer used as a public school. During the winter when heating and transportation will present a problem they plan to use the Community center, in Chicago Heights.

Mrs. Ronald Bagby, who had teacher training, and Mrs. Walter Freese, a substitute public school teacher, of Chicago Heights, serve as teachers on alternate days and two parents assist them at each session. Transportation is furnished by the parents, some taking the children and others picking them up. Fourteen children are registered and five more will be included shortly. The boys and girls range in age from 3 to 14 and are given an opportunity for companionship and play that replaces the studies received in other schools. Children in the group are from Tinley Park, Mokena, Blue Island, Richton Park, Harvey, Steger, Chicago Heights South Holland and Worth.

This movement for the benefit of retarded children was started when Mrs. Bagby called several interested parents to meet in her home to discuss their problem. After the meeting the group contacted the Council in Chicago and has since been in touch with the National Council. The Happiday school receives no support from the state, any other taxing body and the proceeds of the square dance will contribute to this project to help the children. Scientific research is being made by medical men to learn the cause of the condition of retarded children, many of whom are normal at birth.

Sisters' Hobby Is Now a Business

Mary Ann, Gladys and Carolyn Rinke, daughters of Mr. and Mrs. George Rinke, of Mokena, are getting business experience while still quite young.

Starting with one pet Parakeet which Carolyn received on her sixth birthday, about two years ago, the three sisters have added to their aviary until it consists of 32 pair of Parakeets which are now busy raising young blue, green, yellow and white birds.

These birds, also known as Australian Budgerigars, have proven themselves well adapted to a captive life and being of an affectionate nature very soon become attached to the members of a household.

When taken young, handled and petted frequently, their amusing acrobatic stunts, beautiful plumage and cheerful disposition make them attractive, easily-cared-for pets.

A pet budgie is a source of endless pleasure and especially so if the bird talks. Both male and female budgerigars can be trained to talk but earlier success is gained with young male birds. Once a bird becomes a "member of a family" it prefers human company to that of its own kind.

All the girls help care for the birds. Mary Ann, the eldest sister, keeps the records and helps with public relations work.

Gladys and Carolyn are often busy finger-taming many birds at one time and they always find willing helpers among their playmates.

The girls, planning to exhibit some birds at the next "Greater Chicago Cage Bird Club" and at the "United Budgerigar" society show, are hopeful of winning some trophies.

Because it is interesting and educational to watch the parent birds care for their young, one nest box is made with a glass front.

The owners of "The Three Sisters Aviaries" invite Brownie Cub, Girl and Boy Scout troops or any other organized groups, accompanied by their parents or leaders, to visit their aviary. Visitors are always welcome but group visits are to be made by appointment only. This new enterprise is advertising in this issue.

The masquerade dance which was sponsored by the William Martin Post 725 VFW in their hall in Mokena last Saturday night, was the best of such dances given by them, in numbers attending and the good spirit which prevailed.

The following each received a box of candy: Mrs. Harry Cooper, with; Aldonna Rothlesberger, ugliest costume; Everett Heatherwick, Uncle Sam; Mrs. Everett Heatherwick, in a red, white and blue costume as the most patriotic and James Martie as the funniest in a gorilla costume.

Lincoln Estates Beats Steger 19-14

Last Sunday, the Lincoln Estates Bombers won their third straight game by coming from behind to beat the Steger Legion 19 to 14 at Sportsman field in Steger.

Magnificent line play was exhibited by both teams, but the big attraction was the great running and passing of Leonard Bushen.

By the first quarter, after a fumble and a pass by Bushen to Hauser, the Lincoln Estates Bombers were leading 6 to 0. Fine defensive play was displayed by Lloyd Tewes and Tom my Vaugh's quick fumble recovery helped to win the game.

The second quarter got under way with a kick-off by Schaper. Late in the second quarter, Tom Ore, the Steger full-back went through the line for the extra point after making the touchdown. Half time score: Steger 7, Lincoln Estates, 6.

Steger kicked off to Lincoln Estates. After several plays, with the ball on Steger's 15 yard line, Bushen took the ball over for a touch down. Moras tried for the extra point but was unsuccessful. L. E. led 12-7.

Eight plays later Ben Peterson went over for a touch down. The score was now 14-12, Steger's favor.

The fourth quarter kick-off proved to be a poor one which enabled Nueus to race to Steger's 40 yard line. A fifteen yard run by Wagerson set the stage for a pass from Bushen to Marcus. This resulted in a touchdown. The final score: Steger 14, Lincoln Estates, 19.

The starting lineup for Lincoln Estates: L. E., George Letts, L. T. Carl Schiffer, L. G. Tommy Vaughn, C. Eddie Muller, R. G. Ronnie Schaper, R. T. Tommy O'Connor, R. E. Buzz Hauser, Q. B., Leonard Bushen, R. H., Lloyd Tewes, L. H., Richard Vaughn, F. B., Bobby Joe Moros.

Sub: Jimmy Wilson, Steve Wagerson, Billy Blaylock, Ned Nucius.

Ask Farmers to Join In 'Scrap Harvest'

The scrap on Will county farms is needed and the County Mobilization committee has been requested to contact every farmer, either by mail, newspaper or radio to get the farm scrap delivered to local scrap dealers before the heavy snows come.

The present day foundries cannot turn out steel without scrap. The shortage of scrap at the steel mills is so serious that many mills have no reserves. This reserve stock must be built up before winter sets in, otherwise the steel industry will be unable to operate at full capacity. Any reduction in the production of steel will be reflected in the steel available for civilian consumption, such as farm machinery, equipment and so on. Prices are at the peak now and everyone is urged to sell scrap now.

MOKENA CIVIC ASSOCIATION TO SUPPORT COMMUNITY PROJECTS

Cub Scouts Display Work; Win Awards

The Cub Scouts, troop 40, of Mokena, met in the public school Oct. 26, and several parents attended. The meeting was opened with the pledge to the flag. The boys displayed their work for the month, which included leaf collections, flower pots and plastic casting molds.

During a meeting of the parents, leaders and den mothers, the Cubs enjoyed activities under the direction of George Haehlein, indoor director. Stanley Williams reported to the parents on a Round-up program given at the Joliet arsenal which he attended with Mr. Haehlein. It was an instruction program for Cub leaders and committee members in putting on Pack meetings for the next three months, based on the Western theme.

The November meeting will follow the theme with the recruiting of mavericks, new members of the Pack, and it is thought that new interests will be developed under this western set-up. Gene Cruse gave them a land mortgage with the number of new recruits to enroll and as they are enrolled the mortgage will be burned.

The Pack at present consists of seven dens with the prospect of two more being formed and the pack has grown from 24 boys last year, to 34 now, with about five prospective members. The Pack is sponsored by the PTA and their president, J. S. Perry, attended this meeting.

The following achievement awards were made: Wolf badges, George Phelps, Gerald Haehlein, William Murphy; Bear badges, Thomas Williams, John Ashby, Anthony Dina; Lion badge to Delbert Yunker who also received two gold arrows and one silver arrow and to Michael Dina, one gold arrow and one silver arrow.

Gene Cruse met with the Den mothers Wednesday evening, October 17, and gave them several points on becoming a Den mother, the most important being to recruit the parent when they recruit the Cub. The November theme will be puppets and the boys will work on them. The Cub leader, James Murphy, appreciates the efforts of the Cub leaders and feels they are doing very well.

MRS. E. MARTIE BREAKS HIP

While Mrs. Edward Martie of Mokena was working on the storm windows at her home Monday, she fell and broke her right hip.

She and Mr. Martie were working on the windows and while he went to the public school where he is janitor, to attend to some work, she thought she would clean the one window remaining to be washed. While coming down the ladder, with the window, she thought she had another step to go and instead there were two steps and in taking the double distance with one step, she fell and sustained the injury.

Mrs. Martie was unable to get up from the ground, and lay there for half an hour calling for help. Mrs. Walter Muehler, nearly a block north, who was in her yard, heard a faint call for help and got in her car to try to locate the sound. When she drove near the Martie home she heard and saw Mrs. Martie. Mrs. Muehler also drove to the school for Mr. Martie.

Help was given at once and Mrs. Martie was removed to Silver Cross hospital by ambulance where x-rays were taken. She underwent surgery Wednesday morning when the broken hip was pinned. Mrs. Martie is in room 125.

Retail meat merchants of Joliet and the surrounding area will meet Tuesday, November 6 at 8 p.m. at the Spot Cafe ballroom, 715 East Jackson, Joliet, to discuss recently revised beef ceiling prices with Office of Price Stabilization officials, Neil J. Linehan, District OPS Director, announced today.

Among other meeting places near this area will be, November 14, Fenger High school, 11220 S. Wallace street.

This is one of a series of meetings to be held in the Chicago OPS District to explain to meat dealers the requirements of ceiling price regulation No. 25, revised.

Walter B. Neilsen, district price executive, Clare Johnson, chief of the district food and restaurant division, and Henry Rebeck, chief of the district meat division, will address the group on the provisions of the revised regulation.

This presentation will be followed by a discussion period during which the dealers may ask questions about their particular compliance problems.

The regular monthly meeting of the Mokena Civic association October 17, was interesting with an excellent turn-out of members and guests.

President Charles Swanberg called the business session to order at 7:30 p.m., earlier than usual, to take action on revisions to the Constitution and By-Laws. The new articles now in effect define the group as a non profit organization with the improvement and betterment of Mokena and its vicinity as its objective. These aims are to be accomplished through cooperation with local organizations, by fostering education on matters of local public interest, promoting wholesome activities, supporting civic enterprises, and fostering and promoting true American ideals.

Memberships in the Mokena Civic association are now established in several categories including regular members who may be any person of legal age living in Mokena and vicinity, associate members who shall be the duly designated representative of any local organization or club, junior members 16 to 21 years, and honorary members.

The Mokena Civic association is the sponsoring group for the seven Girl Scout and the Boy Scout troops in Mokena, with the exception of the Cub Scouts which are sponsored by the PTA. Within these troops are more than 160 Mokena girls and boys and 57 adult volunteer leaders who are working playing and growing in the good ideals of Scouting. Representatives of the local Mokena Scout organizations and of the Will county councils were invited to bring their programs before the Civic association with emphasis on what it takes to provide good sponsorship and good local support. Mrs. Phillip Watts, president of the Girl Scout Council of Will County, Inc., and Mrs. R. J. Powell, chairman of the organizations committee, as well as Mrs. George Reid, Mokena neighborhood chairman, represented the Girl Scouts and Gene Cruse, field director of Rainbow Council, Boy Scouts of America, and troop committeeman, Rev. William Riemann, represented the Boy Scouts. Among other things it was pointed out how the local Community fund comes back to work for the Girl and Boy Scout units in the village.

The Civic Association voted \$25.00 to Boy Scout Troop No. 40 to replace money used to send two boys to summer camp. These boys otherwise would have been unable to go to camp.

Following this lead, Kenneth Sherwood volunteered personally to give "Camperships" to established camp next summer to a Girl and a Boy Scout who would otherwise not be able to attend. He expressed the hope others would do likewise so every Mokena Girl and Boy Scout who wanted to, could have the fun of camping.

Many girls and boys like to earn their summer camp money and in this respect if you have a job some girl or boy can do please-keep them in mind.

A complete financial report of the 1951 Homecoming was submitted by the committee. The report was prepared by F. Berle Needham and listed in detail all gross income as \$7391.54 with expenses at \$6265.77 and net earnings by the Civic association of \$1125.77. Plans are already underway to utilize these earned funds in various ways within the community, for general community good. A special three man committee reported that construction of a village bulletin board has been initiated with drain tile and new shrubbery for the public park being considered as additional projects.

A committee comprised of Rev. William Riemann, Fred Lehman, Clayton Coburn, and Stanley Williams presented their report of the study made on improvements for the Homecoming next year. All suggestions are welcomed and may be either written or telephoned to any of the members of this committee.

The Mokena Civic association meetings have been growing in attendance with the increased interest taken in community service projects. This group offers the central organization to bring together the many public spirited citizens of Mokena in common united effort for civic improvement in the best traditions of our village. Meetings are held in the VFW hall on the third Wednesday of each month at 8:00 p.m. They adjourn at about 10:00 after which refreshments are served. You are welcome.

Garden Club Seeks Banning of Bill Boards on Highways

(CNS) County Commissioner James F. Ashenden, a north side Chicago democrat, has been named chairman of a county board committee to consider the banning of billboards from the new superhighways being built throughout Cook county.

Mrs. J. Wilson McAllister, of Barrington and Evanston, president of the Garden Club of Illinois, Inc., asked the board to prohibit the erection of billboards within 500 feet of the rights-of-way of superhighways.

"as a matter of safety as well as roadside beautification."

The garden club president told the board that municipalities along Edens expressway have been cooperating in preventing the erection of billboards along the expressway, within their corporate limits.

Commissioner Daniel Ryan, also a Chicago Democrat, said the question should be referred to the county highway department, but Commissioner John J. Duffy, a south side Chicago Democrat, said he saw no reason for that. Commissioner William Busse, dean of the board and a Mt. Prospect Republican, said there is the question of whether the county can prohibit the billboards because some of the area in question is private property. The state's attorney will consider that problem.

Named to Ashenden's special committee were Commissioners Duffy, Christ A. Jensen, George F. Nixon and George A. Miller, an Oak Park Republican. Ashenden said he would study the board's records on the subject and set a date for his committee to meet, sometime prior to the next board meeting Oct. 30.

The Number One American Habit

The thud of the paper on the front porch, tossed there by the bright eyed lad on the bike, or receiving it from your mail carrier or at the post office, starts people reaching for the facts of life—all over town. Ever think of it that way? It's the great American Habit, this eager reaching for the truth, this wanting to know what's going on—everywhere and without the slightest delay at all.

It's a good habit, too, for here is the foundation of the freedoms we cherish so deeply. In knowing what's going on lies our capacity for the making of choices, which is the very essence of our individual liberty.

It is at this point that our favorite newspaper becomes so important to our way of life. For in its pages are presented the kaleidoscopic changes occurring constantly—the truth of what's going on in the world—the facts from which we, as individuals, determine for ourselves how we will vote, whom we will patronize, what we will think, and what we will do.

Newspaper men, everywhere, conscious of the critical times in which we live, are devoting their service to the public. As publishers of your favorite newspaper, we invite you, our readers, to visit our plant and see how the news is gathered and brought to you. We also invite your suggestions for making this newspaper serve you better in guarding our cherished American Freedoms.

THE NEWS-BULLETIN

We would like to remind you if you have not already renewed your subscription to this your home town newspaper, The News-Bulletin, or become a new subscriber to it, to do so soon while our special offer with a choice of two excellent premiums is available. This offer will close at Thanksgiving time at which time the subscription price will go to \$3.00 per year and 7 cents at the news stands. Until Thanksgiving the rate is \$2.50 per year and 5 cents at the stands.

90% For! 10% Against

Railroad workers are represented by 23 standard unions. By mutual agreement, 20 of these unions—comprising about 1,200,000 men, or more than 90%—are working under wages and rules agreed to by them and the railroads. But leaders of three unions—with only about 130,000 men, or less than 10%—still refuse, after more than a year of negotiations, to accept similar wage and rules agreements. These are even more favorable than the terms recommended by the Emergency Board appointed by the President.

Yes, it certainly seems to be finally about time that the leaders of the three unions stop their delaying tactics—their quibbling. But the leaders of the Brotherhood of Locomotive Engineers, the Brotherhood of Locomotive Firemen and Enginemen, and the Order of Railway Conductors continue to refuse. They continue a course of dillying and dallying. It is definitely time to

END THIS QUIBBLING!

On June 15, 1950, an Emergency Board appointed by the President under the terms of the Railway Labor Act—an Act largely fathered by the unions themselves—made its recommendations on certain wage and working conditions ("rules" in railroad language) which had been in dispute between employees and the railroads.

More Than 90% of Employees Accept
Since then, terms equal to or better than the Board recommendations have been accepted by about 1,200,000 railroad employees—more than 90% of the total of all workers. They are represented by 20 of the 23 standard railroad unions.

Less Than 10% Refuse
But three unions—with about 130,000 men, or less than 10% of the total—have refused to accept, even after months of negotiations. These three unions are the Brotherhood of Locomotive Engineers, the Brotherhood of Locomotive Firemen and Enginemen, and the Order of Railway Conductors. These are three of the so-called "operating" unions. Already the highest paid men in the industry, their leaders demand still further advantages over other workers.

In all, there are about 270,000 operating employees. But not all of them, by any means, are represented by BLE, BLF&E, or ORC. As a matter of fact, less than half—132,000 to be exact—are in these three unions. More than half—about 140,000—are in other unions, principally the Brotherhood of Railroad Trainmen. What makes the whole situation so hard to understand is that these 140,000 operating employees are working under wages and rules which the leaders of the other 130,000 say they cannot agree to.

What Do the Railroads Offer?
They offer these three unions the same settlement which was contained in a Memorandum of Agreement signed at the White House on December 21, 1950, by four brotherhoods and the railroads. Later these brotherhoods sought to repudiate this agreement. But on May 25, 1951, the Brotherhood of Railroad Trainmen signed a complete agreement carrying out the

principles of the Memorandum Agreement of December 21. They have been working under this agreement since May 25.

What About Wages?
Under the terms of the agreement, yard engineers, firemen and conductors would now be receiving a wage increase of \$3.4 an hour (\$2.72 a day) and road engineers, firemen and conductors would now be receiving an increase of 19½ cents an hour (\$1.56 per day). Large sums of retroactive pay have already accrued and if the agreement is carried out, will be paid promptly.

What About "Cost of Living" Increases?
The White House Agreement includes an "escalator" clause under which wages will be geared to changes in the Government's cost-of-living index. Two such increases—April and July, 1951—have already been paid to the 90% of railroad employees covered by signed agreements.

What About the 40-Hour Week?
The White House Agreement calls for the establishment of the 40-hour week in principle, for employees in yard service. The employees can have it any time after January 1, 1952, provided the manpower situation is such that the railroads can get enough men to perform the work with reasonable regularity at straight time rates. If the parties do not agree on the question of availability of manpower, the White House Agreement provides arbitration by a referee appointed by the President.

What Else Do the Union Leaders Demand?
The continued quibbling of the leaders of the three unions has to do principally with

rules changes, which have already been agreed to by the Brotherhood of Railroad Trainmen. Of these, the principal one seems to be that having to do with so-called "interdivisional service"—runs which take in two or more seniority districts.

The union leaders would bar progress and efficiency in the industry, and better service to the public, by maintaining a situation where they can arbitrarily stop a railroad from establishing such interdivisional runs. The carriers propose that if a railroad wishes to set up an interdivisional run, the railroad and the unions should try to agree on such run and the conditions which should surround its establishment, and if the railroad and the unions can't agree, the matter will be submitted to arbitration.

But the three union leaders still refuse.

Rules Can Be Arbitrated
The railroads have not only offered these three unions the same rules agreed to by the BRT and covered by the White House Agreement, but have even agreed to submit such rules to arbitration.

The Industry Pattern Is Fixed
With the pattern so firmly established in the railroad industry, it seems fair to suggest that the leaders of BLE, BLF&E, and ORC stop their quibbling and take action to make the railroad labor picture 100% complete. Certainly today's economic and international situation calls for a united front. And certainly no good reason has been advanced why these three unions should be preferred over all other railroad employees.

We are publishing this and other advertisements to talk to you at first hand about matters which are important to everybody.

"Just Been Thinkin' "

As October reaches its brilliant end, the youth of America loses itself in the bewitching excitement of another Halloween. Thus it was with a lad I used to know, about four years of age, and his memorable experience with

THE PUMPKIN
Young Kenny looked with longing eyes
To where a pumpkin lay
Behind the glass of a grocery store
On one October day...
I guess he stood there quite a while
Until the grocer came,
Removed the shining orange head
And handed him the same...
A boyish face lit up with glee
To match the pumpkin's sheen
And the lad marched home in ecstasy
With a prize for Halloween.
'Hey, Mom, just lookit what I got'
He cried out in the hall;
And Mother dashed, with dish in hand,
To answer Kenny's call...
'Where did you get that pumpkin, Ken?'
She sternly asked the boy;
But he just grinned and cried aloud
In overwhelming joy:
'I got it from the grocer-man,
And, Mom, he said that he was once a little kid himself,
And so I got it free!'

Two New Ideas
Given for New
Corn Cribs

If you're building a new corn crib this fall, here are two new ideas to make the crib better suited to artificial drying. One is to leave out cross braces. The other is solid-sided end walls.

Keith Hinchcliff, farm building specialist in the University College of Agriculture, says these two improvements usually do not add to construction cost, and you can use artificial drying or not with these features built into your crib.

By leaving out cross braces, you provide an even density of corn to force the air through. This construction also avoids the repeated repairs due to broken cross braces caused by settling corn.

But Hinchcliff warns that to offset the braces, you need to make the crib stronger in other ways. You need wider studs, stronger anchoring to the floor and cross partitions. Solid partitions especially will stiffen the crib, and by dividing the crib into smaller compartments, you can dry smaller units one at a time.

The other new idea—solid-sided end walls—prevents short circuiting of air during artificial drying.

Of course, you'll want to follow the usual recommendation

of a concrete floor. When properly built, it makes a good floor for a crib. It's durable and rat-proof and can be dry.

Hinchcliff says about six plans

for cribs without braces are available in the Midwest Grain Storage Plan Catalogue. You can get the booklet for 25 cents from the College of Agriculture.

Each year makes Chicago the center of interest of the continent's livestock industry. Last year's show drew over 11 thousand head of the nation's top cattle, sheep, swine, and horses from 34 states and two Canadian provinces. To the livestock breeder and feeder it is the "world's series" of all shows, where final decisions in livestock competitions are made. An International winning is regarded as the highest award that an exhibitor can attain.

\$100,000 in Prizes
Cash prizes will again total over \$100,000 according to the management. A \$50,000 prize list is offered in the Hereford, Angus, Shorthorn and Polled Shorthorn breeds. Swine premiums will total \$10,000 with sheep prizes consisting of \$8300. An eight day program, filled with interest to the farm people of the continent, is planned.

Monday, Tuesday and Wednesday will see the bulk of the livestock classes judged. Dr. A. D. Weber, of Kansas State College, will again select the grand champion steer, star winner of the week, on Tuesday afternoon. Thursday, beginning with the auction of the grand champion steer, will start off three spectacular days of show animal auctions in which the country's top meat animals of the year will be sold. Thursday will be draft horse day in the Amphitheatre. Many other contests, allied with livestock productions, are scheduled for the rest of the week. Entries for all livestock classes except carlots close November 1. Carlot entries close November 17, and exhibits for the Grain and Hay Show will be accepted to November 10.

MM LARGE-CAPACITY SHELLERS ARE BY FAR THE LEADING SELLERS!

It's no wonder that MM Shellers are the popular high-capacity machines for ordinary farm or custom work. They do a clean, fast shelling job and are lightest running. Main drive pulley, cylinder, and suction fan are all mounted on the main, straight-through shaft to eliminate extra drives. MM design of cylinder and cage for special easy action does a smooth, gentle job of rubbing the kernels from the cobs so that cracked corn and badly broken cobs are practically eliminated. Large-capacity sieve and cleaning fan with air regulator and suction fan do a complete job of cleaning dirt and chaff from shelled corn.

Custom operators prefer the DB and EB models that can be mounted on trucks and powered by MM engines or power units which are easy and economically installed and furnish dependable shelling power.

We will be glad to show you how you can chalk up extra profits with your MM Sheller driven by a money making MM Power Unit.

Meet the New A-B-C-O-Matic Automatic Washing Champion!

"SHAMPOO" - WASHES, RINSES, DAMP-DRIES

the Only Washer that SHAMPOOS the clothes

COMPLETELY AUTOMATIC WASHER with EXCLUSIVE Astonishing "CENTRIC" AGITATION

The ABC-O-MATIC "Centric" Agitator with its big, pliant rubber fins, does not spin or oscillate. It moves with a rapid, pulsating action in an off-center position. Washing action begins as a "shampoo" with very little water, hence with thick, creamy "lather," to loosen the dirt. More hot water then produces turbulent, soapy suds, forced through the clothes in tiny jets from the perforations in the agitator.

3-STEP RINSING
Loosened dirt and soap suds are carried away by ABC-O-MATIC's unique overflow rinse, one of three amazing rinsing actions that flush away dirt like magic.

EXCLUSIVE "SPIN-AIRE" DRYING
Air and centrifugal force remove all free water. No excessive speed—clothes are damp-dried soft and wrinkle-free.
